Appion - Bug #665

Importing a FREALIGN reconstruction for a new FREALIGN reconstruction modifies the Euler angles

06/16/2010 10:33 AM - Neil Voss

Status: New	Start date: 06/16/2010
Priority: Normal
Assigned: 
Category: Python scripting
Target version: Appion/Leginon Future Version
Affected Version: Pre-2.0
Show in known bugs: Yes

Description
Importing a FREALIGN reconstruction for a new FREALIGN reconstruction modifies the Euler angles.

It should just copy the Euler's verbatim. Need to add checking of Euler type to the prepFrealign.py script.
