Shortcut keys for TiltPicker do not work on the Mac

From Ed Brignole:

FYI, the keyboard shortcuts for Apply, Xfer, Optimize, etc don't work on the mac. Not a huge deal, they're just a mouse click away. Thought you'd want to know.

Yep, I tried all combinations of all those keys, alt/option/shift/command/fn but to no avail. Any way I'm picking away and that's a good thing.
